# Conditional Rezoning Checklist

## CONDITIONAL ZONING CHECKLIST TO BE COMPLETED BY APPLICANT

This checklist is provided as a general guide for a conditional rezoning submittal. Incomplete packets or inconsistent information may be returned to the applicant prior to the review. Only complete applications and material may be reviewed.

<b>CONDITIONAL REZONING REQUIREMENTS</b>	<b>PROVIDED</b>	<b>NOT APPLICABLE</b>
<b>GENERAL INFORMATION</b>		
Proof of ownership or authorization from the landowner to submit the development proposal		
The legal description of the property		
Written responses to conditional rezoning criteria (listed below)		
A conditional zoning agreement which may include limitations on the uses permitted on the property, specification of lower density or less intensity of development and use, or may impose more restrictive measures on the location, size, height, or other measure for buildings, structures, improvements, setbacks, landscaping, buffers, design, architecture and other features		
The conditional zoning agreement shall include conditions that bear a reasonable and rational relationship and/or benefit to the property and may include conditions related to the use and development of the property that are necessary to serve the intended use of the property; minimize the impact of the development on surrounding properties; preserve natural features and open space		
Preliminary Site Plan		
Rezoning Submittal requirements (in table below)		

### CONDITIONAL REZONING CRITERIA

1. The request shall bear a reasonable and rational connection and/or benefit to the property being proposed for rezoning.
2. The request shall be necessary to ensure that the property develops in such a way that protects the surrounding neighborhood and minimizes any potential impacts to adjacent properties.
3. The request shall be necessary to allow the rezoning to be approved, in that the property could not or would not be rezoned without the proposed conditional zoning agreement.
4. The request shall lead to a development that is more compatible with abutting or surrounding uses than would have been likely if the property had been rezoned without a conditional zoning agreement, or if the property were left to develop under the existing zoning classification.
